

Selected Community Summit Slides

by Barry Drogin, EE '83

Under *The Alumni Pioneer's* motto (We Plow Through The S***, So You Don't Have To), we have viewed all 145 slides of the Master Powerpoint <http://dl.dropbox.com/u/52538005/FINAL3_COMBINED_12-5-11sm.pdf> and picked 17 that are particularly important. The first 11 have to do with the rise in non-academic costs, first in terms of the size of the administration itself, and on to actual headcounts and other non-academic expenses. Then there's a spectacular graphic which illustrates how many alumni of which discipline are on the Board of Trustees and the Alumni Council, a histogram and table about annual giving (which is not Capital Campaign giving), a student pledge program, and finally 3 slides on the breakout sessions, including 2 slides which were never shown in The Great Hall. Herewith they proceed, without comment.

MONEY ON THE TABLE

\$438,410 from 542 pledges

PLEDGE NOW

With the start of the 2011-12 Academic year, Cooper Union's new President Jamshed Bharucha announced that in the shadow of unmanageable deficits, the Cooper Union must place "tuition on the table," and consider charging Cooper Union students to attend the school. For the past century Cooper Union has existed as a meritocracy: awarding a full scholarship to all students. Turning Cooper Union into a tuition based school is a profound departure from the established principles of the school and would completely alter the character of the institution.

The Free Cooper Union initiative represents the members of the Cooper Union community who wish to support the Cooper Union's strong and unique identity as a tuition free undergraduate school for the study of architecture, art and engineering.

We alumni, students, faculty, charitable individuals and institutions pledge our full financial support to the Cooper Union as soon as the administration states publicly and unequivocally that Cooper Union's undergraduate schools of architecture, art and engineering will remain completely tuition free.

The Cooper Union exists as a unique and revolutionary model of education and an ideal and example to institutions of higher learning the world over.

We believe in Peter Cooper's original mission. We believe in sustaining this mission for all future generations. This mission is clearly expressed in Cooper Union's mission statement:

**"The College admits undergraduates solely on merit and
awards full scholarships to all enrolled students."**

Breakout Themes:

Oversight

Financials

Culture of free education and philanthropy

Fundraising

Removing barriers mobilizes resources

Communications

Defer judgement

There are no bad ideas at this point. there will be plenty of time to judge ideas later.

One conversation at a time

Allow ideas to be heard and built upon.

Be visual

Try to engage the logical and the creative sides of the brain.

Encourage Everyone's Contribution

The conversations are as much about discovering and exploring powerful questions as they are about finding effective solutions

Build on the ideas of others

Think in terms of 'and' instead of 'but'. If you dislike someone's idea, challenge yourself to build on it and make it better.

Go for quantity!

Set a big goal for number of ideas and surpass it! Ideas should flow quickly.

One idea per sheet

No longer than a sentence

Encourage wild ideas

It's the wild ideas that often create real innovation. It is always easy to bring ideas down to earth later!

Explore Questions that matter

The conversations are as much about discovering and exploring powerful questions as they are about finding effective solutions
